

A New Leaf

LANDSCAPE RENOVATION

Volume 4 Issue 1

LIVING VALENTINES

Give your **Sweetheart** a living valentine, that will last beyond Feb. 14th. For the traditional; this can mean bare root roses tied with red ribbons, or select from numerous flowering plants that can go outdoors after the hot-house blooms fade, such as Azaleas or Camellias. Or shaped topiaries are easily found this time of year, such as the pictured Rosemary.

For more impact, **How about a Garden Tune Up?** It is time to cut back woody shrubs to stimulate lush new growth and prevent them from becoming leggy or scraggy looking. A layer of mulch to improve the appearance of the garden beds washed out by our heavy winter rains can do a lot for the health of your garden as well as help against those spring time weeds.

Maybe it is time to get your Low Voltage lights working again or even a new system installed; your garden and home is looking a bit dark since the Christmas lights were removed, isn't it? SPJ fixture pictured

For a more dramatic flair, **How about a Garden Makeover ?** The "A New Leaf" and "Steven Z. Volski and Associates" Crews have been busily working with several Landscape Architects bringing their designs to life for our mutual Clients enjoyment. Is it time for you to consider a more major re-styling of your garden? WE can help you, give us a call or email.

A New Leaf provides the following services:

Check Drainage flows and line clearing

Irrigation check-up, adjustments and repair

Planting review and recommendations

Lighting check-up bulb changes and adjustments

Pest control and fertilization of plant materials

Seasonal Color Changes

Garden enhancements for special occasions
